## DETAILED ACTION

### *Specification*

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The abstract of the disclosure is objected to because of the following items:
  - a. The Abstract exceeds the 150-words limit.
  - b. The phrases "The present invention is to..." and "In the present invention,..." can be implied.

Correction is required. See MPEP § 608.01(b).

3. The disclosure is objected to because of the following informalities:
  - i. On page 15 (last paragraph), the specification states "... in the printer 60 (Fig. 1)." However, Figure 1 does not show the printer 60.

Appropriate correction is required.

### *Drawings*

4. The drawings are objected to because page 11 (11 of 11) is not a Figure or a Chart. Page 11 of the Drawings is a "Description of Reference Numerals" in text format. A proposed

drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

5. Figures 1 and 15 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

#### ***Priority***

6. It is noted that this application appears to claim subject matter disclosed in prior Application No. PCT/JP01/05920, filed 07/07/2001. A reference to the prior application must be inserted as the first sentence of the specification of this application or in an application data sheet (37 CFR 1.76), if applicant intends to rely on the filing date of the prior application under 35 U.S.C. 119(e) or 120. See 37 CFR 1.78(a). For benefit claims under 35 U.S.C. 120, the reference must include the relationship (i.e., continuation, divisional, or continuation-in-part) of all nonprovisional applications. Also, the current status of all nonprovisional parent applications referenced should be included.

7. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on July 7, 2000. It is noted, however, that applicant has not filed a certified copy of the P2000-207312 application as required by 35 U.S.C. 119(b).

#### ***Allowable Subject Matter***

8. Claims 1-21 are allowed.

Art Unit: 2851

**Conclusion**

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Frech (US 3,661,457), Goodhill, et al. (US 5,812,245), Beispel (US 3,650,623), Young (US 3,642,377), Gyori (US 3,586,438), Whitson (US 1,925,355) and Kastner (US 2,943,554) each disclose a contact printing apparatus for printing motion picture film.

10. This application is in condition for allowance except for the following formal matters:

Objections to the Specification, Drawings and Priority as set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney Fuller whose telephone number is (703) 306-5641. The examiner can normally be reached on Monday through Friday from 8:00 am to 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Russ Adams, can be reached on (703) 308-2847.
